Rustic land in UDF de São João das Lampas e Terrugem

Rustic land with an area of 7,680 square meters in Alvarinhos - Sintra, enjoys good access and a peaceful location in a rural area amidst farms, with sea views and very close to the asphalted road, towards Odrinhas - Ericeira.

This land has been uncultivated for about 17 years, which is an advantage for any type of agricultural cultivation, including organic farming.

The land has excellent conditions for agrotourism, with the possibility of placing wooden houses or yurts on different terraces, benefiting both access and the views for guests.

We handle your credit process with no bureaucracy, offering the best solutions for each client.

We are registered credit intermediaries with the Bank of Portugal under number 7165.

We assist with the entire process before and after the deed.
