One Green Way is a unique gated community that prioritizes the well-being and comfort of its residents. The properties within the community are equipped with cutting-edge technology, ensuring seamless connectivity and convenient functionality. Each residence boasts a Chef's kitchen, a home office, a cinema room, and a gym, providing an ideal environment for hosting events, working, or unwinding. The interior design, curated by Vilaça Interiores, focuses on creating purposeful spaces that strike a perfect balance. One of the standout features of the community is its mature and sustainable garden, meticulously designed by renowned international landscape architects, Cracknell. The garden incorporates local materials and employs an innovative approach to its arrangement. The outdoor spaces are carefully crafted to promote relaxation and enjoyment, offering various ways and locations for residents to spend quality time with their families and friends. From heated pools to outdoor kitchens and barbecues, dining areas, and roof terraces with breathtaking views, the community ensures a premium indoor-ou...
