House to rebuild - Cascais Center

Set on a plot of 692.6 m2, in the historic center of Cascais, the property is in a residential street, with sea views from the top floor. It has a built area of 430m2 within walking distance of the bay, marina and Marechal Carmona Park. This villa is distributed over 3 floors: the living rooms have direct access to the garden, kitchen and bathrooms on all floors.

The attic has a ceiling height of around 2.5 m in the center, which allows it to be used.
