- Energetic certification: A+
- Number of floors: 11
- Roof terrace
- Storage / utility room
- Views: City view
- Video entry system
- Lift

On Av. 5 de Outubro is the new boutique residential project, 355 Outubro.With excellent quality finishes and noble materials, the development has 18 two-bedroom, three-bedroom and five-bedroom duplex flats spread over 10 floors.The flats have areas of between 75 and 303 m2 and benefit from balconies or terraces, parking and storage rooms.Given its central location and ease of access, it is just a few minutes from any part of the city, close to shops, the main cultural attractions and the essence of what it means to live in the heart of Lisbon.The development is served by an excellent transport network, such as the metro, buses and trains. The airport is around 10 minutes away by car.The proximity to the city's main shopping centres, as well as cultural facilities, theatres, cinemas, museums and Lisbon's university campus make this the ideal location for those looking to live in the centre of Lisbon.Translated with www.DeepL.com/Translator (free version)
