BEACH VILLA WITH UNOBSTRUCTED SEA VIEWS IN FERRAGUDO FOR SALE

Detailed description

This exceptional villa, currently under construction and scheduled for completion by the end of the year, offers a rare opportunity to acquire a frontline ocean property set within a breathtaking natural landscape.

Designed by architect Thiago Braddell, this beautiful villa is set on a 1,604 m² plot in the highly sought-after beachfront area of Pintadinho in Ferragudo. Surrounded by lush greenery, the property combines traditional architecture, elegant comfort, and stunning views of the Atlantic Ocean.

The property features four bedrooms and five bathrooms. High staggered ceilings enhance the sense of space and natural light throughout the home, while floor-to-ceiling windows provide uninterrupted views of the ocean.

The main level includes a modern kitchen and an open-plan living and dining area with a fireplace, all fully oriented toward the sea. This floor also accommodates two bedrooms, including the impressive master suite, which enjoys a spacious private terrace overlooking the cliffs, beach, and Atlantic coastline.

The lower level has been thoughtfully designed with flexibility in mind, making it ideal for guest accommodation. It offers a private lounge area with a fireplace and kitchenette, along with two additional bedrooms and bathrooms.

The outdoor areas are among the property's most remarkable features, with expansive terraces, a planned swimming pool, and luscious natural greenery creating an atmosphere of exclusivity and privacy. The villa's positioning maximizes panoramic coastal views and unforgettable sunsets over the Atlantic Ocean.

A further highlight of this property is the private access directly to the beach — a truly rare privilege, even in the Algarve.

Contact us today for further information or to arrange a private viewing of this exceptional property — a rare opportunity to experience luxury living in one of the Algarve's most privileged seaside locations.
