AMI 1032

Features

- Entrance Hall: Sim
- Freezers: Sim
- Saltwater pool
- Proximity: Airport, Shopping, City, Open field, Hospital, Pharmacy, Public Transport, Schools, Playground
- Gym
- Central location
- Accessability\proximity: Touristic areas
- High Security Door
- Energetic certification: A+
- Number of floors: 10
- Library
- Video entry system
- Games room
- Ceilings: Pladur C / embedded ilumicação
- Parking places
- Parking place type: Interior
- Sports Complex
- Evolving Zone: Airport, Children's Play Areas, Freeway, Bank, Library, Fire brigade, Shopping mall, School, Green Spaces, Railway station, Pharmacy, Gymnasium, Hypermarket, Hospital, Metro, Police, Fuel Station, Taxi Rank, Public Transport, Commercial Area, Historic Area, Bus Station
- Video Door Phone: Sim
- Indoor Parking: 119
- Hall: Sim

The location of Linea Residences, inserted in a noble and central area of the city, between Saldanha and Campo Grande Gardens, with easy access to the main entry and exit routes of Lisbon and quick access to the airport, the unique physical characteristics of the property - visible, for example, in the Viúva Lamego tiles lining the facades - were the ideal mix to design a unique residential development in this area of Lisbon.With a project by the renowned architect André Caiado from the Contacto Atlântico studio, the building, formerly dedicated to offices, has now been transformed into 36 apartments, distributed in typologies T1 to T4 and two Urban Villas, with private pool and terrace, and also integrates 2 commercial spaces.All residential units have underground parking with smart electric charging and private storage spaces. Besides the generous outdoor areas, LINEA Redisences will have a communal swimming pool, gym, sauna and Turkish bath.
