Rustic Land in Almaceda

TAPADA DA PONTE

A small farm in the center of Portugal, located in Martim Branco, a village integrated into the Schist Villages Route, 24 km from the city of Castelo Branco. This mixed property includes agricultural and forest land with an area of 35,000 m2, mostly planted with pine trees, very few eucalyptus trees, as well as some olive trees, fig trees, quinces, apple trees, and cultivated areas.

The property also features an old stone well and the remains of an ancient noria hydraulic system.

Another characteristic of this property is the presence of two weirs, which served for irrigation and supply of drinking water to livestock. Currently, on rare occasions, it is possible to observe local wildlife drinking and refreshing around them.

This property is an excellent investment for rural tourism or the implementation of agricultural projects, such as honey production due to the widespread presence of wild plants and suitable flowers for organic farming. The land has not been cultivated since the mid-90s.

The property has good access, a few meters from the paved road, yet it is located in an isolated area of rare natural beauty, with breathtaking views of the Serra da Gardunha and abundant water due to the proximity of a river that runs laterally on this land. All these resources create a sense of well-being and a charming retreat for those who want to escape the pressures of modern life!
