Urban plot for construction in Areias-S.João das Lampas

Land inserted in a low density urban area in Areias with a total area of 5,296 m2 and a construction index of 0.25, allowing a gross construction area of 1,324.00 m2. It had an allotment project approved in 1998 for the construction of 9 houses, which has now expired.Areias, is a region that lives mainly on agricultural production but given its proximity to the sea, enjoying the view but the calmness typical of the villages, it has been developing a lot in recent years. It is located in the municipality of São João das Lampas.
