1 bedroom apartment in Santos-o-Velho

1 bedroom apartment in Santos-o-Velho, in good condition, semi-equipped and semi-furnished. It is located in a very picturesque neighborhood, in a privileged riverside space that houses several national and international dining spaces, bars, terraces and other services, such as the Higher Institute of Economics and Management of the University of Lisbon, along with the river docks, usually very frequented by the most diverse boats. Previously an industrial space now requalified and developed in one of the main places of nightlife of Lisbon, also offering all kinds of services, commerce and transport that allow to enjoy this riverside space of great beauty, with a magnificent view over the Tagus River and the south bank, observing, on the other hand, all the charm of the city of Lisbon and its unique luminosity, arranged among his hills.
