LOFT T2+1 with terrace in the center of Porto

Brand new luxury apartment, located on the ground floor of an emblematic building in the Cedofeita area, a central and historic area of Porto that is a true work of architectural art.

T2 +1 fully furnished and decorated, with high standard finishes, large dimensions and spaces with high ceilings, which create an effect of continuity and transparency with the interior garden, which is the center of this exclusive fraction.

The building was built at the beginning of the 20th century and was designed by Manuel Alves Ferreira, the master builder of other buildings in the same street.
Completely restored and rebuilt, it offers the most remarkable contemporary architectural solutions, while integrating an imposing palace from the beginning of the last century. Its interiors have been resized and redesigned to promote a contemporary lifestyle, emphasizing comfort and good taste in every detail and corner.

The exclusive interior garden has a 360º view of the entire apartment. It also has direct access to a private terrace, where you can enjoy a peaceful setting within the dynamic city of Porto.
The suites enjoy a garden with plants and flowers, which illuminate the entire area and provide moments of relaxation.

Upon entering this fabulous loft, you'll find an open-plan kitchen and living room, a kitchen equipped with built-in

appliances, a full service toilet and access from inside the apartment to the garage box. Moving on to a second suspended living room, which makes the most of the natural light coming in from the interior garden, with access to all the rooms in the house, a staircase leading to the bedrooms (en-suite), which are involved in a concept that has been thought out in detail and is characterized by different layouts, creating a welcoming, harmonious and refined atmosphere. There are built-in closets in all the bedrooms, with very generous areas and a very comfortable private area.

As you go up the interior staircase to a second living room, you can also go up to the third and top floor where you'll find a deck where you can enjoy an open leisure area with a garden that surrounds the entire outdoor area.

In this apartment you can find the best of both worlds, living in the center of Porto in one of the busiest and most prestigious areas and at the same time being able to enjoy the peace and quiet that the interior of the apartment provides.

COMMON SPACES
The design of the development's common spaces is defined by the typical classic skylight in the stairwell and a lobby. The building has an elevator that allows residents of the upper floors easier and more comfortable access. The construction principle was to create softened spaces, giving our eyes a sense of perfection and balance.
