• Energetic certification:

Live in full harmony with nature! 7ha estate in Tavira.

In the heart of the Algarve mountains, stands a 7-hectare estate that seems to come out of a dream.

Between the silence of nature and the proximity of Tavira, this self-sustaining refuge offers everything you need to live in balance – from solar energy to crystal clear water, filtered by osmosis and ready to be consumed directly from the tap.

Upon arrival, the view is breathtaking: a 360º horizon where the sea stretches out in all its grandeur. On the gentle slopes of the property, three glamping tents on stilts invite moments of contemplation, each with its own private space, porch and direct connection to the pool, sauna, kitchen and common room.

Imagine guests strolling at dusk, among the fruit trees and the 800 carob trees that are neatly planted by the property.

The main house is the heart of this estate. On the ground floor, two cozy bedrooms, a functional kitchen and a large living room with more than 5 meters of ceiling height.

The central fireplace warms not only the environment but also the soul, while the mezzanine, with 70m², offers a library, office, leisure area and even a double bedroom with private bathroom.

Outside, the patio opens onto a saltwater pool overlooking the valley and the sea. The porch, large and inviting, hosts dinners with friends, family celebrations and moments of relaxation.

More than a property, this estate is a lifestyle – a space where sustainability meets comfort, where nature meets
