Historic farm in the village of Cucujães, Oliveira de Azeméis.

I present to you QUINTA DO BURACO, a farm that is part of the history of Portugal.

QUINTA DO BURACO is inscribed in the history of Portugal. D. Miguel I and his entourage stayed there overnight, on the occasion of the Siege of Porto in 1832.

A historic property with 7,230 m² that benefits from the east/west orientation, located in the village of Cucujães. Strategically located, it is 34 minutes from Aveiro and 39 minutes from Porto, with easy access to the highway.

The fifth is evident:

- By the emblematic Casa do Buraco, a former luxury residence, which impressed with its 3 floors, large halls with frescoes and detailed stuccoes, oratory, workshops and an elegant garden with stonework gate;

- By the passage of the Ul River, where the historic Roman Bridge of Pica and its Romanesque sidewalks, which serve as a gateway to the property, are preserved;

- For its gardens and a rustic and authentic atmosphere.

This is a rare opportunity to acquire a true piece of Portugal's history.

This property had in the past a project for the remodeling and expansion of housing and reorganization of the surrounding space, approved by CM OAZ.

Don't miss this opportunity!
