2 Bedroom HouseFactory Apartment in Porto

Next to the University Campus and the Hospital de S.João, the House Factory - Smart Apartments Development will be born.
This development is strategically placed for those looking for a practical life with immense amenities at their disposal.
The House Factory is a development focused on innovation and sustainability, whose premise is to provide the best of amenities, such as a common laundry, a living room, an electric scooter sharing point and even large green spaces, so that it is possible to live moments of relaxation both on your balcony enjoying only the landscape, as relaxing in a calm walk through the condominium itself.
This project also stands out for its modern lines and the most current architectural and constructive solutions.
Each fraction has at least one balcony, and also a parking space.
Of type T2 it has a useful area harmoniously divided to provide you with the best and most satisfactory experience.
For those who want to make the right and safe investments, for all the reasons already described, this is a good project to monetize your investments.
Given its privileged location, living in this development easily has access to the most varied public transport,
