GRANITE BUILDING IN THE PARISH OF MAÇAINHAS, BELMONTE

Quinta Cimeira is located in the parish of Maçainhas, 8km from Belmonte and 5 minutes from the A23 junction. Maçainhas would have been populated in remote times and would have been greatly influenced by Roman civilization. The granite building on the ground floor and 1st floor is nestled between two others also made of granite. Not belonging to the same owners, joint negotiation for acquisition may be possible. The interior of the property is in ruins, requiring reconstruction and adaptation to the intended purpose.
In a phase of expansion of rural tourism, this will be a beautiful example for this activity, as long as it is restored for this purpose. But it can also be your second home or possibly your main home, as long as your quality of life involves enjoying the silence and harmony of a paradisiacal location. It includes, very close by, a small vegetable garden measuring approximately 60m2, which you can use to plant or sow agricultural innovations.

According to paragraph g) of article 4, buildings considered to be in ruins are excluded from the energy certification system, in accordance with Decree. Law 118/2013.
