Apartments T1 and T2 Calheta

New development under construction located in the south of Madeira Island - Calheta, with completion scheduled for the summer of 2024. Modern architecture with straight lines, the development consists of 12 apartments in total, making it a small condominium, and more welcoming, presenting itself with 4 apartments of one bedroom and 8 of two bedrooms. The quality of the materials will not be forgotten, as well as some details, highlighting the fact that all apartments will have parking with a socket for charging electric cars. Large living areas, fully equipped kitchens, en-suite bedrooms, storage room and very generously sized balconies with sea views. Being located in what is considered the sunniest area of Madeira Island, the installation of air conditioning in the apartments was not forgotten, thus providing more comfort on the hottest days. The development will also offer landscaped areas and a pool facing south so you can enjoy it all year round. Don't miss this magnificent opportunity to live in a quiet place just 30 minutes from the center of Funchal.
