Plot of urban land for construction with 407.30m2

It is presented a plot of urban land located in a privileged area of Perafita, integrated in a subdivision intended for the construction of single-family houses. With a total area of 407.30 m², this land offers an excellent opportunity for custom construction, with a permitted construction index of 323.20 m².

The plot stands out for its good accessibility, inserted in a quiet and expanding residential area, with proximity to schools, local shops, services and main access roads (including Francisco Sá Carneiro Airport and the A28).

Key features:
Total land area: 407.30 m²

Permitted construction area: 323.20 m²

Planned typology: Single-family house

Infrastructures included: Water, sanitation, electricity and streets
