FERREIRA DE CASTRO FLATS – Contemporary Architecture in the Heart of Bonfim

FERREIRA DE CASTRO FLATS is a contemporary residential building located opposite the Igreja do Bonfim in Porto. The project stands out for its modern architectural language, characterized by elegant lines and a harmonious integration into the surrounding urban environment.

Situated in the heart of Bonfim, one of the city's trendiest and most authentic neighborhoods, the development benefits from a prime location, just minutes from Porto city center. Bonfim is now an excellent residential area in full transformation, where local shops, boutique cafés, and cosmopolitan restaurants coexist with the artistic influence of the Escola de Belas Artes and the Escola Soares dos Reis.

This vibrant context attracts a young, creative, and international audience that values urban lifestyle, mobility, and access to a wide network of transport and services.

With elegant and functional architecture, FERREIRA DE CASTRO FLATS has been designed to provide comfort, style, and quality of life, reflecting the contemporary spirit of the new Porto.

Construction started at the end of 2024, with completion expected in the second half of 2026.
