A MEDITERRANEAN STYLE SINGLE STOREY

Set within the quiet hillside of Picota, just moments from the village of Boliqueime, this generous plot with picturesque sea and country views, offers the opportunity to create a home that feels both private and connected, within the calm of the calm yet within easy access to the Golden Triangle.

An approved architectural project is already in place for a contemporary Mediterranean-style villa, designed primarily across one level, allowing for a natural, well-balanced layout.

The main floor has been carefully arranged to separate the private and social areas with clarity and consisting of 299. Three ensuite bedrooms, including a well-positioned principal suite, are set to one side of the home, while the living spaces open out on the other with an open-plan kitchen, dining and lounge area that connects directly with the outdoor terraces. A separate office provides flexibility, easily adapted as an additional bedroom if required, alongside a guest cloakroom and a practical laundry room.

The lower level of approximately 198 m^2 is dedicated to the functional elements of the home, including a double garage and generous storage, keeping the primary living areas above focused and uncluttered.
Outside, the design introduces a series of considered outdoor spaces. A large swimming pool is framed by multiple decked areas, creating distinct zones for relaxing, dining or entertaining throughout the day. Set slightly apart from the main house, a dedicated leisure deck offers space for a jacuzzi or cold plunge, along with a firepit and built-in seating, for a more atmospheric setting for evenings.

The project allows for a high degree of personalisation, giving future owners the ability to shape finishes and details to reflect their own style, while working within a strong architectural concept.
