Plots of Land Near Castelo Branco – Portugal

This charming plot of land is located just 20 minutes from the city of Castelo Branco, in a picturesque rural area near a village. Covering a total area of 6,822 m², the plot features a well that ensures water availability throughout the year and includes a documented rural building of 16 m².

Despite its proximity to the village, the plot is predominantly rural, yet it has neighbors who cultivate their lands adjacent to the property. There is, however, the potential to explore the use of the more forested area of the land.

The plots offer excellent cultivation potential, already featuring fruit trees and a vast forested area. This is an exceptional business opportunity: with some vision and a small investment, it is possible to transform this space into something unique from the neighboring cultivated areas. The land boasts a beautiful and ample landscape, water availability, and the potential to rebuild the existing rural building.

This property promises to open up a world of opportunities for those seeking to invest in high-potential rural
