Villa with 6 bedrooms with a fantastic sea view in the center of Cascais

Completely renovated villa whose spaces have been designed to combine maximum comfort with the best materials and finishes, such as travertine marble and hijau stone.

Located in a very exclusive neighborhood, which offers a lot of security and tranquility, the house is built in a lot with more than 2600m².

The house is flanked by the leafy vegetation of Palmela Park and offers an impressive view to the sea.

It is divided into two floors and an attic with the following distribution:

On the ground floor, the entrance is made through a bright hall that gives way to the living and dining rooms, and also to a gourmet kitchen that offers access to the social areas. We highlight the luminosity and the fantastic sea view that is common to all these rooms. In this area, there is also a storage room and a laundry area. This floor also has a social bathroom and an office that can be used as a suite.

On the first floor, there are four suites and, in the attic, we find the master suite with a huge terrace and a superb sea view.

The underground floor features a luxurious Spa area with indoor pool, spa facilities, a sauna and a steam room, a garage, a technical area and storage facilities.

The house is equipped with air conditioning and underfloor heating.

Excellent property in the center of Cascais that provides a lifestyle you will want to enjoy. The Villa has been totally refurbished with quality materials and finishings, such as travertine marble and hijau stone.

This property is just a few steps from the historic center, shops, restaurants, supermarket, Cascais Marina, train station, and also the beach!
